

New for 2018:

MVP Preferred Provider Facilities

Choose and Save!

Lower your costs for important health care services.

Making an informed decision about where you get care can help reduce your out-of-pocket costs. MVP's new preferred provider facilities give you lower-cost options for select services without compromising quality.

**Laboratory
Services**

**Radiology
Services**

**Ambulatory/Outpatient
Surgery Services**

These facilities can help our members lower their costs while still meeting the same rigorous quality standards as facilities with much higher costs.

Access to a full national network of providers.

You are not limited to where you can go for these services; your MVP health plan continues to provide comprehensive coverage with access to a national network of providers and facilities. And even better, you won't pay more to use that full network of providers—you may simply pay a lot less if you choose to seek care at a preferred provider facility.

Find an MVP preferred provider facility near you.

Visit mvphealthcare.com and select *Find a Doctor*, then *Find a Facility*.
Or, call the MVP Customer Care Center number on the back of your MVP Member ID card.

How much can I save?

If you have a deductible:

Medically necessary and covered services at MVP preferred provider facilities are covered in full once your deductible is met.

If you don't have a deductible:

Medically necessary and covered services at MVP preferred provider facilities are covered in full from day one!

MVP Preferred Provider Facilities

Answers to common questions.

What is an MVP preferred provider facility?

MVP preferred provider facilities give MVP members lower-cost options for laboratory, radiology, and ambulatory surgery/outpatient surgery services.

How are facilities chosen?

MVP selects facilities that offer our members a lower-cost alternative while meeting the same rigorous quality standards as higher-cost facilities.

Are these facilities lower quality?

No! With an MVP preferred provider facility, you are never trading quality for cost.

What types of radiology services are included?

MVP preferred provider facilities can offer savings on a wide variety of radiology services, including:

- CT Scans
- MRI/High Tech Imaging
- Ultrasounds
- X-Rays, and more!

How do I know if an ambulatory surgery facility is an option?

Check with your primary care physician and/or surgeon to see if the type of surgery you need is appropriate for outpatient surgery and if your surgeon is affiliated with a preferred ambulatory surgery center or facility.

The following services can be performed at ambulatory surgery centers:

- Ear, nose, and throat
- Gastroenterology
- Oral
- Orthopedic
- Urology
- And many more

Do I have to use an MVP preferred provider facility for these services?

No. MVP's EPO/PPO plans provide access to a full national network of providers and facilities. If there's not a preferred provider facility in your county—and you don't want to travel to another facility—you can still obtain services from any in-network provider. And even better, you will not pay more to use that full network of providers—you may simply pay a lot less if you choose to seek care at a preferred provider facility.

How much will I save with an MVP preferred provider facility?

Once your deductible is met, medically necessary and covered services at an MVP preferred provider facility are covered in full. If you don't have a deductible, these three services are covered in full from day one. Depending on the facility and how they bill, you may still be responsible for non-facility fees (for example: surgeon/physician fee, anesthesia, etc.).

Find an MVP preferred provider facility near you.

Visit mvphealthcare.com and select *Find a Doctor*, then *Find a Facility*.

Or call the MVP Customer Care Center number on the back of your MVP Member ID card.
